

Green Earth Institute Farm Visits

With advance arrangements, our educational staff is available to host elementary school classes as well as Cub Scouts, Brownie Scouts, and other youth groups. We provide age-appropriate tours of the farm and educational activities.

High school and college classes, as well as adult groups, also come to the Farm for educational tours and activities.

Our organic farm is a special place for nature education. Combining vegetable farm fields with butterfly and children's vegetable gardens, along with some woods, wetlands, and prairie, this place is a wonderful resource for children to get acquainted with nature

The Green Earth Institute's organic vegetable farm is located at:

The McDonald Farm
10S404 Knoch Knolls Road
Naperville, Illinois 60565
