

February 28, 2019

Dear Maplebrook Families,

While we still have a few months of school remaining, our planning for next year is underway! One very important task is compiling class lists for the fall. Creating balanced class lists which meet the needs of all students is a tremendously difficult undertaking that takes many hours of thoughtful dialogue between classroom teachers, administrators, and other staff members.

A number of aspects are considered as each child is placed in a classroom grouping. Taken into account are factors such as learning styles, academic strengths and challenges, independent learning skills, social relationships and behavioral patterns. Every effort is made to ensure that your child is placed in an environment where we believe he/she will achieve academic, social and personal success.

We ask that you trust our staff in the class placement process. That being said, if you are interested in providing any insight and pertinent information about your child as a learner, please do so in writing by completing the other side of this form (*or use a printed copy from the WAG*). You can describe your perspective on your child's learning style and/or how they learn best. Also, feel free to include any other information that you want considered in the decision regarding classroom placement. Specific teacher requests cannot be honored.

Please include your signature as parent/guardian and **return by Friday, March 15.** *Forms received after this date will not be considered, as groupings for 2019-2020 will have already begun.*

Class placements will be available for viewing on the Infinite Campus Portal in August. The exact date will be communicated in our summer mailing.

Thank you for your continued support and partnership in learning.

Ryan DeBora  
Principal
