Past Experience

Reflect on the 2016 and 2020 US presidential election seasons, discuss the climate you or your students experienced and what concerns do you have regarding the 2024 election season?

Desired Experience

It's inevitable that these discussions will come up and we should embrace them. How do we ensure that discussions about the election are respectful, inclusive, and promote understanding of diverse perspectives?

Resources & Supports

What protocols, resources or supports are needed to ensure our desired experience?

Consider the following groups' needs:

- School leaders
- School staff (incl teachers)
- Students
- Families

Thank
you!
