Accessing District 203 Staff Logins

The new "Staff Logins" page is hosted inside our Google environment on the District Resource Center website. If you are attempting to access this page from a personal device where you are not signed into your District Google account or are currently signed into another Google account on a district device, you will need to sign in to Google with your Naperville203.org account first.

If you see a 404 error, that means you are signed in with a non-District 203 Google account.

There are two ways to work around this problem. See those two options on the next few pages:

1. Open a new incognito window and sign in to your District Google account

- a. Open a new browser window/page and go to Google.com
- b. Locate the 3 vertical dots menu () in the upper right corner. Click and select "new incognito window"

c. Go back to naperville203.org and select Staff
