

Greetings KJHS Parents!

We will soon be kicking off Kennedy's biggest and primary fundraising event!

For those not familiar, all Naperville 203 middle school Home & School groups raise funds through 6Star Fundraising for their own schools. Money raised goes towards school activities such as dances, assemblies, any extra assistance the school may need, and most importantly, teacher wish list items which in turn help our students!

Last year Home & School provided teachers with **over \$20k** to be used for requested items such as microscopes, a piano, storage areas for instruments, white erase desks for flexible learning, and comfortable seating. This could not have been done without our students' and families' support! You can see some of the items here!

Magazine drives consist of selling magazines (online or paper), selling other items and gifts, or direct donations.

Students who meet the requirements with a number of points as indicated in the flyer your student will take home, will be invited to partake in raffles for prizes and ultimately, a day of fun at a local amusement center Scene 75. Your student will then be allowed to invite a friend who might not have qualified but tried selling too. It is a very special day for the students!

Please be aware that the point reward system may vary with magazines providing the most points (and the most profitable for the school), then gifts then donations

Please note that direct donations are always welcome and can be accepted at any time in the front office. Please understand, however, that if donated outside of this company, your student may not be eligible for the raffles and day at the amusement center.
