

Good Morning Redhawk/Huskie Families,

Tuesday, Superintendent Bridges sent a Talk203 extending the Online Academy Registration deadline to July 29. Upon review of the initial survey sent to families earlier this summer and current enrollment survey results, we anticipate a low enrollment in our Online Academy. Currently, our enrollment in this academy is consistent with our community survey results. Due to this enrollment and online learning structures, we are unable to provide all of the curriculum offerings available within our brick and mortar buildings. However, we appreciate the feedback we have received regarding offerings in the Online Academy at the high school level and have increased our selections based on students enrolled and the need to offer more course work. We will continue to work with families on an individual basis to meet the unique needs of students' schedules as best as we are able once enrollment is finalized. Please note, some of the course requests may be purchased through a 3rd party vendor and monitored by a Naperville 203 educator.

As a reminder, families must finalize the selection of the online academy by completing the surveys found in your Infinite Campus portal **by July 29, 2020**. This allows for us to appropriately plan for the school year. Please be aware that choosing Online Academy is a commitment for the semester.

Follow this [link](#) to the updated list of course offerings. Please work with the administrators below to discuss individual student needs.
