

Student Profile For John Doe

Student ID: 12345

Cognitive Abilities Test™ (CogAT®)

Form: 7

Test Date: 09/01/2015

Norms: Fall 2011

Grade: 3

Class: Johnson

Building: Oakview

Level: 9

System: Dalen CUSD 200

State: IL

This report provides a bar graph displaying the battery and composite CogAT scores for your student.

It is used to identify your student's areas of relative strengths and weaknesses. It is also used to review your student's test performance in comparison with national norms.

Score types:

Age Percentile Rank (APR): Age percentile rank indicates the percentage of students in the same age group in the national normative sample whose scores fell below the score obtained by a particular student. For example, in the report shown above, the Verbal battery APR for John Doe is 93. John scored better than 93% of the students that took the test.

Standard Age Score (SAS): Standard age score compares a student's performance with that of other students who are the same age. It is a normalized scale with a standard deviation of 16 and an average score of 100. It should be interpreted in terms of how many standard deviation units the score is above or below the mean for the age group. For example, students who have an SAS of 100 on the Verbal battery have a rate and level of development of verbal reasoning skills that is typical of their age group. A student who has an SAS of 125 on the Verbal Battery has a faster rate and a higher level of development of verbal reasoning skills than the typical student in the same age group. The SAS scale can be used to make distinctions among students at the highest and lowest levels of performance. Scores range from 50-160.

Age Stanine (AS): Age stanines compare the scores of one student with those of others in the national norm group who are the same age. The stanine scale has 9 levels. A stanine of 1 is the lowest and 9 is the highest. A stanine of 5 is average.

*If a student leaves many items blank in a battery, they may not receive a score. Please contact your student's teacher or school administrator for further information.
