

ENGINEERING FOR KIDS CODING ACADEMY

ELMWOOD ELEMENTARY

TUESDAYS March 19 April 2, 9, 16 | 2:30-4:00PM

\$99 Register Before 3/13

\$125 Register 3/13-3/19

ELM1903 (GRADES 3RD-5TH)

With nearly 3 billion people owning a smart phone, app development has increased significantly over the past five years. In this JavaScript Coding Academy class, students will learn the fundamentals of text-based coding in JavaScript by creating interactive web app games. Students will develop the skills to code, test, and create browser-based app games in real-time using an easy-to-understand format. The students can interact with and share the apps they create with friends and family via email or a QR Code.
