

Two Upcoming
2018 Sessions

Registration
opens Sept. 4

Robotics 1 Workshop Series

with 4-H & Lego Mindstorms

Led by an experienced 4-H robotics volunteer, youth will work in pairs to explore designing and building with Lego Mindstorms EV3 kits. This 3-session series is designed for youth in grades 3 to 6. Participating youth will:

- Learn loops, conditional statements & problem solving
- Learn about mechanical and software design
- Program robots to capture objects, avoid obstacles, and follow commands
- Build teamwork and communication skills

For questions,
contact 4-H Program
Coordinator
Patty Luster at 630-
955-1123 x18 or
pluster@illinois.edu

Two Upcoming Sessions to choose from:

Oct. 29, Nov. 5 & 12 OR Dec. 3, 10 & 17

Meets 4:45-6:45 p.m. on these Mondays

at the DuPage Co. Extension office
1100 E. Warrenville Road, Suite 170, Naperville.
Cost is \$60 per youth*. Space is limited!

Register online @ go.illinois.edu/extensiondkk

*Payment due two weeks prior to session start date. If you need a reasonable accommodation to participate in this program, please notify the local University of Illinois Extension office at least two weeks prior to the program.

4-H TEEN AMBASSADORS

SCIENCE & HEALTH

About the Program

4-H Science & Health Ambassadors receive focused lesson training from 4-H staff, and then can share those projects with community members or lead them for younger youth through supervised, organized activities. The program is designed for youth in grades 6 to 12.

Each fall, 4-H Science Ambassadors will learn the National Youth Science Day project, and then have the opportunity to lead it at various activity dates and locations. Throughout the 4-H year, Science Ambassadors also have the option to be trained in additional project areas and can volunteer to lead those activities at community events and workshops.

Build Important Skills

- COMMUNITY SERVICE
- VOLUNTEERISM
- LEADERSHIP
- PUBLIC SPEAKING
- COMMUNICATION
- TEAMWORK
- SCIENCE & STEM CONCEPTS
