Hub88 Presents:

MEGA TECH SUMMER CAMP

By Fortitude Robotics and Beyond Tomorrow

CAMP OVERVIEW

We will be teaching a wide spectrum of technology to middle and high school students through a series of immersive classes in which the students can interact with their environment and talk with experienced Hub88 subject matter experts from the fields of the classes offered, tailored to both beginner and advanced skill levels. Dr Sarah Ware, Founder and Director of BioBlaze, and Dr Claire Tang, computer scientist, will be joining us at the camp.

More Info and Register at:
