

Tech/STEM Club

The focus of the technology/STEM club is to provide an opportunity for students to explore areas of interest. Some days are structured, and all students will be participating in the same activity. Other days students will be allowed to choose a long term project that they can work on individually or with a small group of friends. The days and times vary throughout the week, so it is important to use the calendar to decide what days to join. Students can come to every meeting or join us for just the ones that fit in their schedule or are of interest.

Info: Open to all 6th, 7th and 8th graders

All levels are welcome-no experience needed!

Start Date: November 7

End Date: December 10

Location: Learning Commons

Teachers: Mrs. Vivian

Mrs. Konrad
