Mission
To educate students to be self-directed learners, collaborative workers, complex thinkers, quality producers, and community contributors

Course Description
After gaining the necessary background knowledge in Software Engineering 1, small groups of students collaborate to develop a software product as they iterate through software engineering development cycles. Throughout this semester-long authentic engineering experience, students create their product that requires them to collaborate with each other as well as stakeholders.

Spring Semester Course Learning Standards
- Collaborate with stakeholders to propose, define, design, implement, test, and deliver a software product. (100%)

Grading:
Your course grade will reflect what you have learned, not what you have completed!

Overall Semester grade:
- 85% Coursework
- 15% Final Presentation and Retrospective

The final semester grade will be rounded to the nearest percentage point.

Course Grade
Spring Semester

Standard 5 - Collaborate with stakeholders to propose, define, design, implement, test, and deliver a software product
- Sprint Activities
- Personal Retrospectives

Each unit/standard is assigned a particular percentage.

Within each unit, summative and formative sections are weighted as follows:
100% Summative; 0% Formative

Grading Disbursement:
A= 90-100 B= 80-89 C= 70-79 D=60-69 F= <59

Assessments are graded on a 1-5 scale in a manner consistent with the AP Computer Science exam:
5: Extremely well qualified
4: Well qualified
3: Qualified
2: Possibly qualified
1: No recommendation

A 5 corresponds to a 100%; a 4, 88%; a 3, 75%; a 2, 62%; a 1, 50% in the grade book.

Revised 14 August 2018
Reassessment Policy

Summative Assignments: These assignments must be completed within two weeks of the due date or else they will receive no credit. The maximum score on a summative lab submitted after the due date is a 4.

Formative Assignments (homework, discussions, activities): Formative assignments are for developing understanding.

Reassessment Policy:
1. No reassessments as there is a single semester-long software product

Communication

- Teachers make every effort to respond to emails and phone calls within 48 hours during the work week.
- The best way to communicate with teachers is through email; however, if you haven't received a response in 48 hours, please resend the email or call their voicemail. Your email may have gone into the spam folder.

Help

- Make an appointment with your teacher.
- Attend S.O.S (supervised open study) in the Literacy Center M, W & Th from 3:15 to 4:15.
- Drop in for peer tutor during lunch periods or before school through the Literacy Center.

Parents or Guardians

We need your help!
- Parents should actively check Infinite Campus for their student's grade.
  - The grades on Infinite Campus will be accurate only at Mid-Quarter and Quarter. Prior to those dates, the grade reflected is fluid.
  - Infinite Campus is a communication tool until final grade is posted.
- Please ask your student about their school work
- Check with your individual teacher for classroom procedures, schedules, and daily class news.
