Grading Calculation Definitions
At Naperville North we define formative and summative work as follows:
- Formative work is used to monitor student's learning to provide ongoing feedback that can be used by students to improve their learning. Examples may include: practice activities, homework, quizzes, etc.
- Summative work is used to evaluate student learning at the end of an instructional unit or segment of learning by comparing it against a standard or benchmark.

Grading Practices
Grades communicate each student's progress toward mastery of goals/standards for the course.
- No extra credit will be issued.
- Violations of the academic integrity policy will be consequenced by administration in collaboration with the DC/teacher.
- Any percentage lower than 50% will be put into the grade book as a 50%, the lowest possible grade on completed work (incomplete or work not turned in will receive a grade of 0 in the grade book). A zero on a summative assessment will only indicate that no attempt was made by the student.
- Formative work:
  - Accepted up to the end of each unit.
  - Formative work submitted after the due date cannot be penalized more than a total of 10%.
- Summative work:
  - A zero on a summative assessment will only indicate that no attempt was made by the student
    - Summative work submitted after the due date cannot be penalized more than a total of 10% and must be submitted prior to the end of the next unit.
Grading Disbursement
A=100-90%, B=89-80%, C= 79-70%, D=69-60%, F=59-0%

Grading Breakdown
- Formative = 10%
- Summative = 90%

Academic Integrity Code Statement
District 203 students are challenged to address the academic process enthusiastically, diligently, and most importantly, honestly. It is the responsibility of our students, teachers, and administration to uphold the fundamental academic values of honesty, responsibility, fairness, respect and trust. The integrity of our district’s academic programs is built upon these principles.

Academic integrity violations include cheating; plagiarism, self-plagiarism or copy infringement; obtaining or providing an unfair advantage; falsification of documents; unauthorized access to records; and inappropriate collaboration, whether intentional or unintentional. The classroom teacher and administration will collaborate and exercise professional judgment in determining academic integrity violations.

Reassessment Policy
Students will be provided multiple and varied opportunities to demonstrate mastery of learning standards. The purpose of reassessment is to allow students to demonstrate mastery of course standards in which they remain deficient.

- Students will be required to engage in further learning and reassessment when students do not demonstrate sufficient learning of the course essential standards.
- Students who have demonstrated sufficient learning of the essential standards (but scored below 80%), will be allowed reassessment opportunities on summative assessments if they so choose. To be eligible for reassessment, students must
  - Demonstrate readiness for the summative assessment through completion of formative work.
  - Complete designated learning experiences as assigned by the teacher
- Reassessments MUST be completed during the next unit of study.
- Project-based assessments that include multiple opportunities for feedback and improvement in the assessment process will represent multiple attempts and be considered a reassessment
- Higher reassessment grades will replace the original assessment score (but will not exceed 80%).
