Below is an example of the Store Fronts. The Store Fronts are like the shops within a Mall.

You will see all Store Fronts that are available to all students but you may not see all the Products within the Store Front.

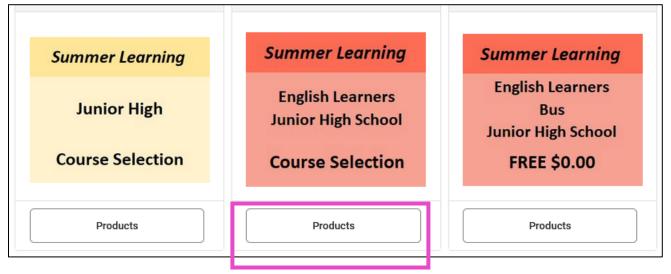

#### Example:

Sample Child7 is a junior high student. The parent will see both the Yellow Junior High Course Selection Store Front and the English Learners Store Fronts that the student has been recommended for. If the student has been recommended for other programs you will see those Products in other Store Fronts as well.

Click on the "Products" button to see the course listings. The Products are dependent on the following:

- Student Grade
- Recommended Courses
- School Boundaries

English Language courses will always have the coral header above the background colors.
