Grading Practices

At Naperville North we define “Practice” and “Evidence” work as follows:

- Practice work is a fundamental part of the learning and preparation process and will not be accepted after the due date unless specifically requested by the teacher.
- Evidence of learning (Summative or formative assessments) submitted after the due date cannot be penalized more than a total of 10% and must be submitted within 5 school days after the original due date.
- A zero on a summative assessment will only indicate that no attempt was made by the student. OR If a legitimate attempt is made on an assessment, a score of 50% will be the lowest possible grade.
 - Students will be eligible for the 50% floor through timely and consistent completion of practice work and formative assessments.

Reassessment Policy

- The purpose of reassessment is to allow students to demonstrate mastery of course standards in which they remain deficient.
- Students who have demonstrated sufficient learning of the essential standards, but scored below 80% will be allowed reassessment opportunities on summative assessments if they so choose. To be eligible for reassessment, students must
 - Demonstrate readiness for the assessment through timely and consistent completion of practice work and formative assessments.
 - Complete designated learning experiences as assigned by the teacher
- Reassessments MUST be completed within 5 school days of the student receiving feedback unless otherwise determined by the instructor. The reassessment deadline should be communicated in an Infinite Campus comment.
- Project-based assessments that include multiple opportunities for feedback and improvement in the assessment process will represent multiple attempts and be considered a re-assessment.
- Higher reassessment grades will replace the original assessment score (but will not exceed 80-90% selected by the school).
