

Naperville North High School
Course: Drafting Studio 1

Teacher: Rebecca Diorio

rdiorio@naperville203.org

Office: 125

Department Chair: Melissa Oskroba (moskroba@naperville203.org)

| | |
|-------------------------------|---|
| District Mission | To educate students to be self-directed learners, collaborative workers, complex thinkers, quality producers, and community contributors |
| CTE Mission | In partnership with the community Career and Technical Education (CTE) provides students with real-world experiences. Students will discover and explore their passions which will lead to career opportunities and the development of life skills. |
| Course Description | In this course, students will study two dimensional and three dimensional CAD Drafting. The drafting topics covered are dimensioning, working drawings, sectioning, auxiliaries, isometric pictorials and developments. Students will utilize their skills in the various programs to design and create a variety of drawings in the architectural and engineering fields. |
| Course Textbook & Resources | Teacher provides a working portfolio that students will utilize throughout the semester. Various district approved engineering/architectural video's relating the work being done in class to the real world occupations are shown throughout the semester. |
| Course Standards & Weights | <p>Students can use their understanding of technical drawings and schematics to complete the design and development process. (100%)</p> <p>Students can use their understanding of objects in relation to one another to understand three-dimensioning imaging.(100%)</p> <p>Students can use their understanding of digital manufacturing tools and computer-based programs to complete the design and develop implementation process. (100%)</p> |
| Units of Study: | Mechanical Drafting (2D CAD) 3-View Drawings Inventor (3D CAD) *onshape will be used remotely |
| Grade Calculation Definitions | <p>At Naperville North we define formative and summative work as follows:</p> <ul style="list-style-type: none">• Formative work is used to monitor student's learning to provide ongoing feedback that can be used by students to improve their learning. Examples may include: practice activities, homework, quizzes, etc.• Summative work is used to evaluate student learning at the end of an instructional unit or segment of learning by comparing it against a standard or benchmark. |
| Grading Practices | <p>Grades communicate each student's progress toward mastery of goals/standards for the course.</p> <ul style="list-style-type: none">• No extra credit will be issued. |

- Any percentage lower than 50% will be put into the grade book as a 50%, the lowest possible grade on completed work (incomplete or work not turned in will receive a grade of 0 in the grade book
- Violations of academic integrity will be consequence by the administration in collaboration with the DC/teacher.
- Formative work:
 - Accepted up to the end of each unit.
 - Formative work submitted after the due date cannot be penalized more than a total of 10%.
- Summative work:
 - A zero on a summative assessment will only indicate that no attempt was made by the student
 - Summative work submitted after the due date cannot be penalized more than a total of 10% and must be submitted prior to the end of the next unit.

Grading Disbursement

A=100-90%, B=89-80%, C= 79-70%, D=69-60%, F=59-0%

Semester Grade:

- Coursework = 85% (Summatives=90%, Formatives=10%)
- Final Exam =15%

Final Exam Format: Hands on drawings

Academic Integrity Code

District 203 students are challenged to address the academic process enthusiastically, diligently, and most importantly, honestly. It is the responsibility of our students, teachers, and administration to uphold the fundamental academic values of honesty, responsibility, fairness, respect, and trust. The integrity of our district's academic programs is built upon these principles.

Academic integrity violations include cheating; plagiarism, self-plagiarism or copy infringement; obtaining or providing an unfair advantage; falsification of documents; unauthorized access to records; and inappropriate collaboration, whether intentional or unintentional. The classroom teacher and administration will collaborate and exercise professional judgment in determining academic integrity violations.

Reassessment Policy

Students will be provided with multiple and varied opportunities to demonstrate mastery of learning standards. The purpose of reassessment is to allow students to demonstrate mastery of course standards in which they remain deficient.

- Students will be required to engage in further learning and reassessment when students do not demonstrate sufficient learning of the course essential standards.
- Students who have demonstrated sufficient learning of the essential standards (but scored below 80%), will be allowed reassessment opportunities on summative assessments if they so choose. To be eligible for reassessment, students must
 - Complete more formative work to master the skill prior to completing another summative assessment.
- Reassessments **MUST** be completed during the next unit of study.

- Project-based assessments that include multiple opportunities for feedback and improvement in the assessment process will represent multiple attempts and be considered a reassessment
- Higher reassessment grades will replace the original assessment score (but will not exceed 80%).

Student Communication

- You are encouraged to communicate with their teacher regarding questions.
- Teachers make every effort to respond to emails and phone calls within 24 hours during the workweek.
- The best way to communicate with teachers is by email however, if you haven't received a response within 48 hours, please resend the email or call their voicemail. Your email may have been filtered.

Additional Resources for Support

- You can make an appointment with your teacher should you need additional instruction or support in learning material.
- You can attend S.O.S. (Supervised Open Study) in the Learning Commons Monday, Wednesday, and Thursday from 3:15-4:15 to receive extra support or to work on assignments.
- You can drop in to work with a peer tutor during lunch periods or before school in the Literacy Center.

Parents or Guardians Partnership

Naperville North believes in a collective partnership with parents/guardians which provides students the best opportunities for success.

Some ways parents/guardians can support their student's learning are:

- Actively check Infinite Campus for their student's grades.
 - Infinite Campus is a tool to progress monitor student work until the final course grade is posted.
 - Monthly progress grades are posted and represent the current grade of a student in the course at that moment in time.
- Discuss missing assignments, reiterate due dates, help organize folders, materials, assignment notebooks, and review upcoming projects and assessments.

COURSEWORK ASSESSMENT DETAIL

Assessments may be added or eliminated based on teacher discretion.

Standard 1:

Students can use their understanding of technical drawings and schematics to complete the design and development process.

- Set 1
- Set 2
- Set 3
- Set 4
- Set 5

*Each set hosts a number of drawings

Standard 2:

Students can use their understanding of objects in relation to one another to understand three dimensioning imaging.

- Set 6
- Set 7
- Set 8
- Set 9
- Set 10
- Set 11
- Assembly Project

Standard 3:

Students can use their understanding of digital manufacturing tools and computer based programs to complete the design and develop implementation process.

- 3D printed object
- Cube Project
- Playground project
