

Naperville North High School **Student Services Department**

Scheduling at Naperville North High School is a process that involves student course selection, the assignment of certified staff, and the ordering of student materials. It requires careful consideration of individual student needs and demands meticulous balancing so that classes are not overloaded.

At times, a student may feel that having a particular class during a certain part of the day, or having a class with a friend may be to his or her benefit. These preferences or requests, however, are impossible to accommodate.

Because of this, and staying in line with the policies regarding lunch period changes and teacher changes, schedules cannot and will not be manipulated so that students can select which subjects correspond to specific periods.

Due to certain classes having limited offerings (one or two class periods each day, or only offered a specific semester), coupled with the necessity of maintaining balanced class sizes, it is not possible to honor these requests.

Thank you,

Jeffery Farson
Director of Student Services
